## Rstudio Cloud

1. Login to Rstudio Cloud (<https://rstudio.cloud/>) - To access Rstudio Cloud, you need to either register with Rstudio or have a Google account or GitHub account in order to log in.
2. Once logged into RStudio Cloud, access the Rstudio Cloud projects:  
[https://rstudio.cloud/spaces/20995/join?access\\_code=LjLDRmwa2%2FwEN%2FhXsPU2Qbexq0FyDtrl1X3yOI6G](https://rstudio.cloud/spaces/20995/join?access_code=LjLDRmwa2%2FwEN%2FhXsPU2Qbexq0FyDtrl1X3yOI6G)
3. After the lab sessions, if you want to download a copy of the project to your personal laptop, follow the instructions on page 2 of this document.

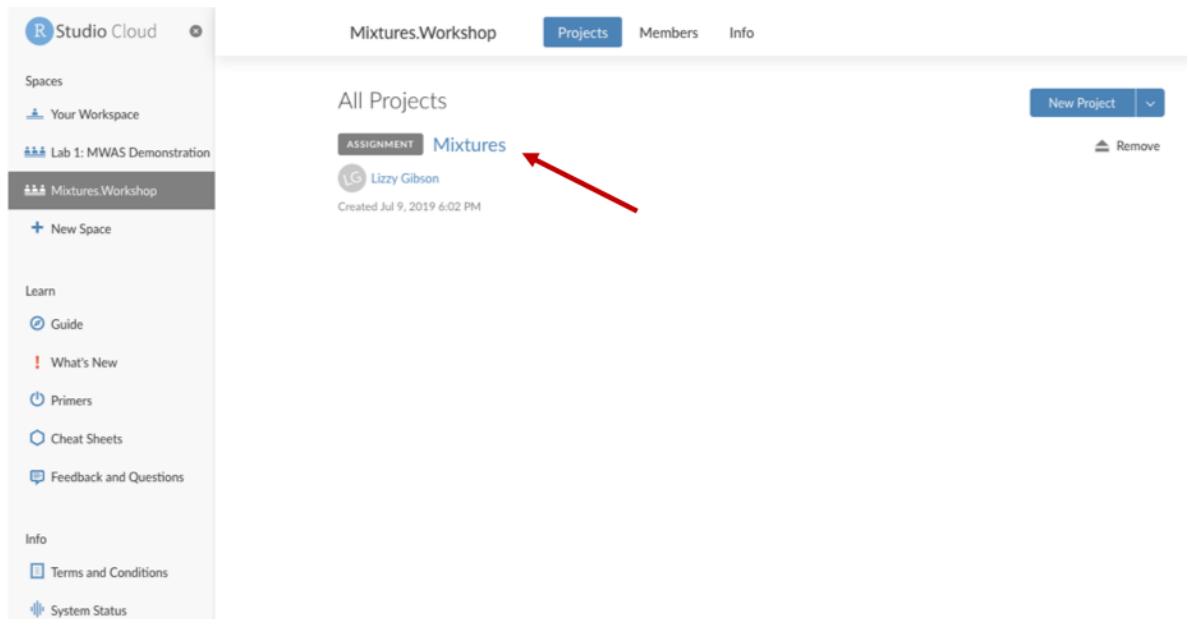

## Github Site

You only need this link if Instructors direct you to it: <https://github.com/lizzyagibson/Mixtures.Workshop.2019>

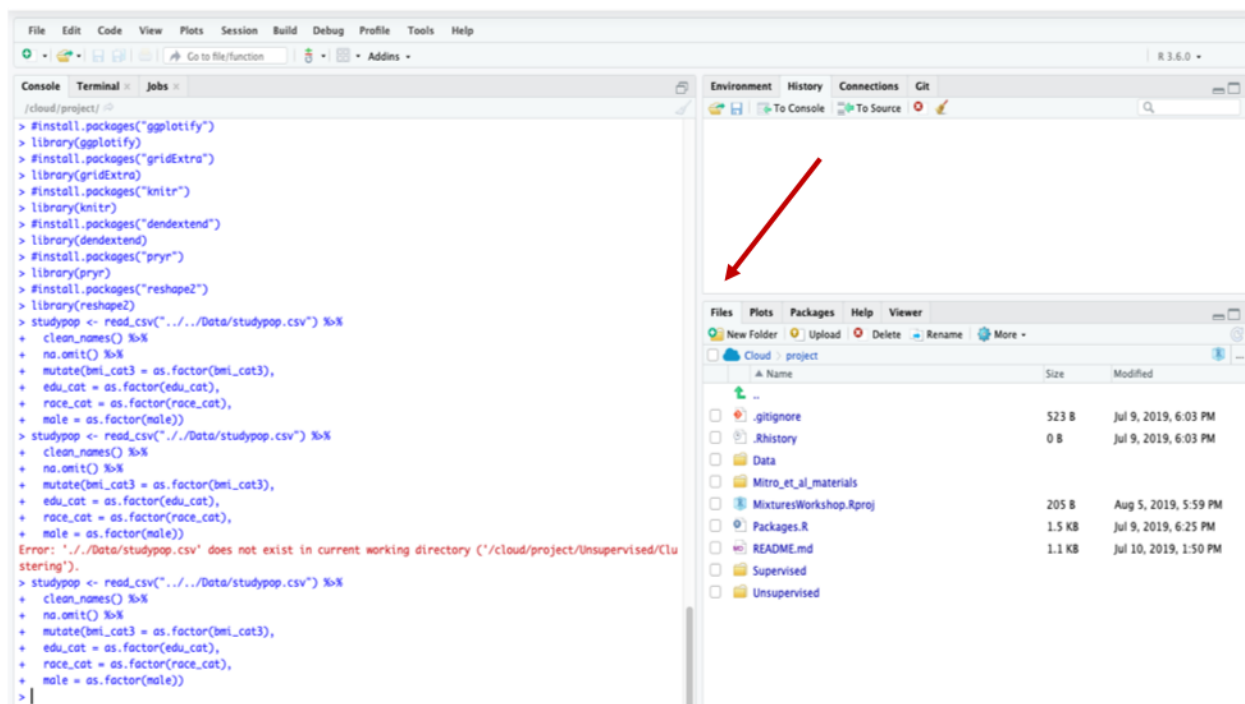

# Downloading Files

To download files from RStudio Server you should take the following steps:

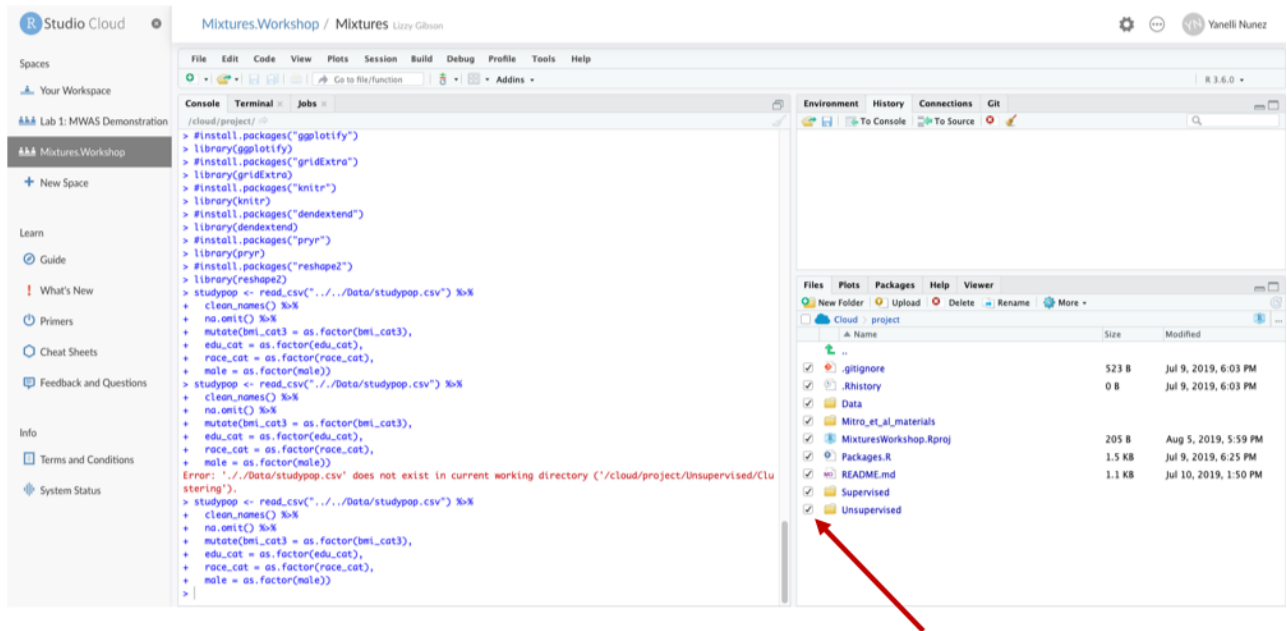

- 1) Double click on the Mixtures workshop project to open the directory.

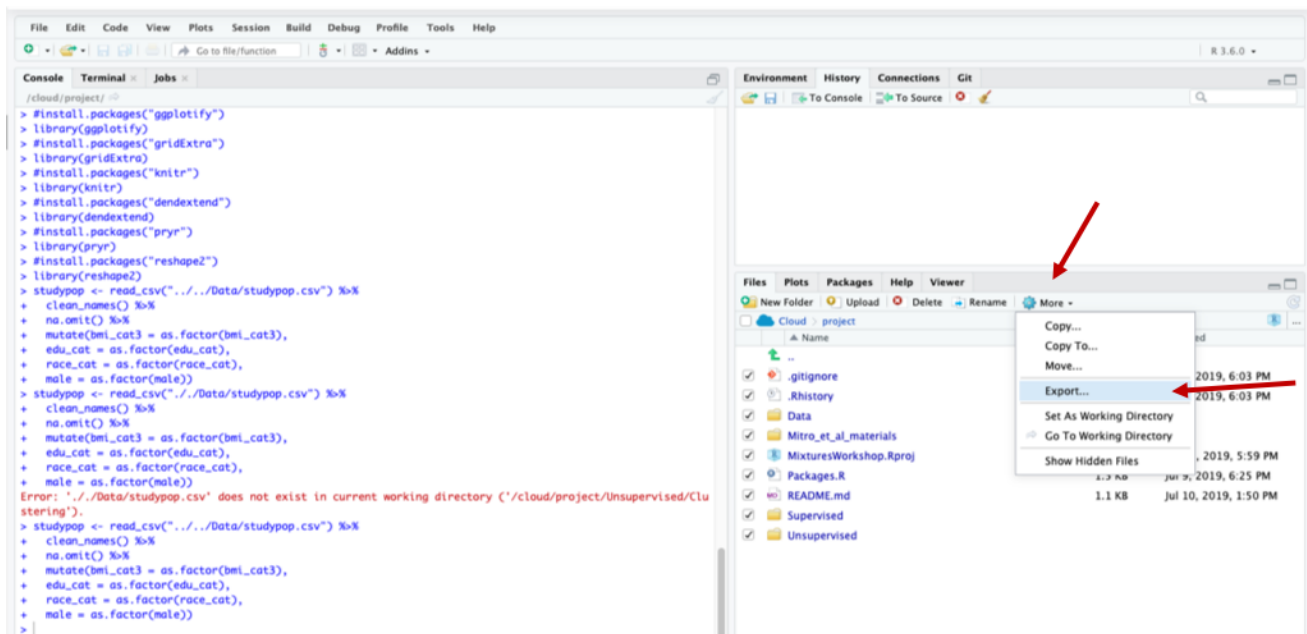

- 2) Once you are in the Mixtures directory, open the **Files** panel.

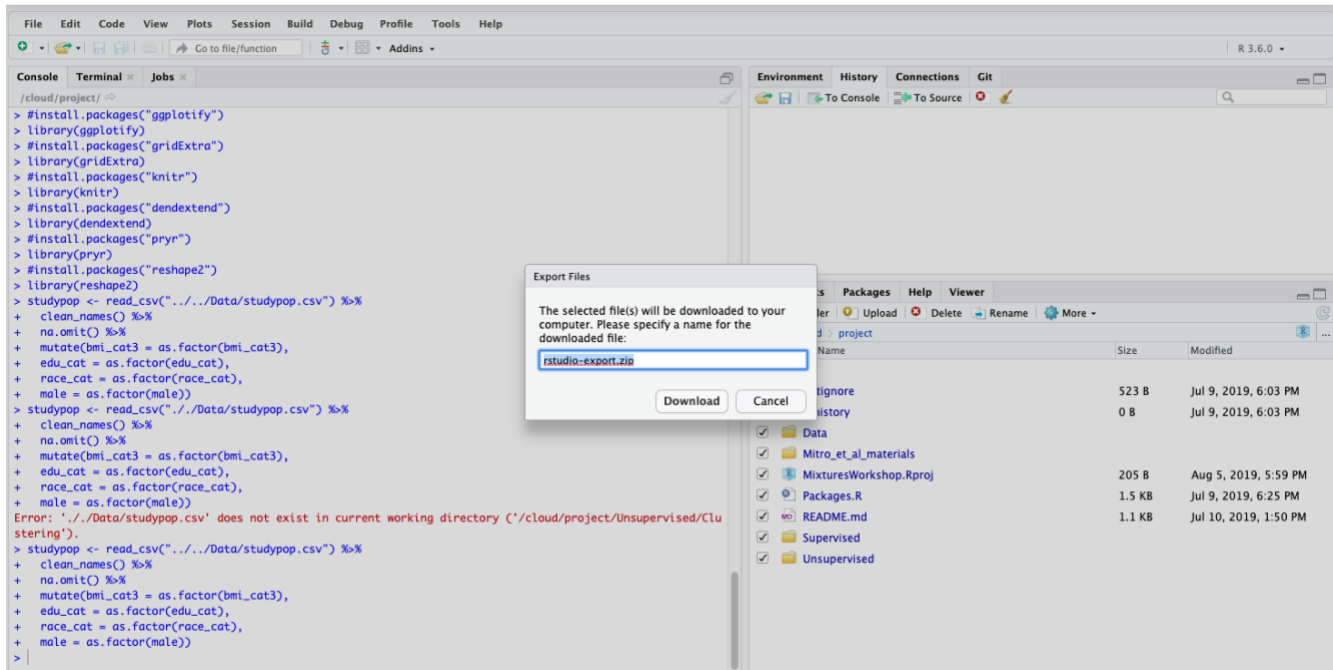

3) Select the file(s) and/or folder(s) you want to download.

4) Click **More** -> **Export** on the toolbar.

- 5) You'll then be prompted with a default file name for the download. Either accept the default or specify a custom name then press download.

Note that if you select multiple files or folders for download then RStudio compresses all of the files into a single zip archive for downloading.
